

Trying out simplenote

# This is a nice title

---

and this is content below the nice title.

## First header

## First header

## **Second header**

## **Second header**

## **Third header**

## **Fourth header**

## **FIFTH HEADER**

## SIXTH HEADER

*italics*

*Block quote starts here*

*and continues...*

*and ends here.*

*and a nested one*

*I thought it was ended...*

*not yet though*

## Making lists

Here's a shopping list:

- shoe polish

- tooth brush
- school bag
- etc

## and an ordered list

1. Tomatoes
2. Lemons
3. Water melon

## Code blocks

use pre

```
this is code
    and code
and code
```

end of code

using tabs or four spaces:

```
another code  
and another
```

I can also write `code` within a paragraph.

## Links

Please visit [The New Walk website](#) today

Emphasis

- single asterisks\*
- *double asterisks\**

*single underscores*

**double underscores**

This app looks nice. Let me try whether I can add an image.

I love this
